Quickson CM

Choose Custom Made Flexibility

Quickson CM inks are custom-formulated to work seamlessly on any size press and to create eye-popping results even on unusual substrates and in specialty applications. From the Quickson Paste System you can choose from both standard process and intense colours and PANTONE® Basic Colours, letting you develop exactly the ink formulation you need in terms of drying time, light resistance, rub resistance, tack values, UV coating ability and much more.

A demanding substrate, a special application, very delicate printed matter, with Quickson CM you can take on virtually any printing job with the assurance of results that stand out. For ultimate flexibility in custom made ink formulations, choose Quickson CM.

For colours so real you can almost taste them choose Quickson inks, made by Van Son, and used by professionals... the choice is yours.
